MARCH 26, 2016

My house accidentally burned down about a year ago, and after a long process with the insurance company I received the funds to rebuild it. Will and Sean from All Pro Restorations were recommended to me by someone who's opinion I take very seriously. They did an incredible job on my home, from start to finish they were great and easy to work with, fair and understanding of all my request and made sure I was completely satisfied with my home. They even came back in after I paid them to change a few things I wanted changed and Will even helped me hang a few TV's on the wall. I've never been one to trust company's or really anyone when they say they will do something and do it right, but my experience with All Pro Restorations has made me see that there are still some great people in this world who do really care about how you feel when it's all said and done. I would recommend these guys to anyone who recently suffered a loss, they will handle your case with care and make sure you're made whole again.
